

SYSTEM NOTICE - SEZ ONLINE SYSTEM

No.: NDML/SEZ Online/2021/52

Date: 8th December 2021

User Group: All SEZ Units, Developers, Co-developers, Customs and DC Offices

Subject: Implementation of security feature -Mandatory Mobile & Email Verification for each user.

In order to further improve the security of users' access and credentials, a feature for Email and Mobile number collection and verification was introduced in the system. Initially, verification of mobile number and email ID were not enforced by the system. However, in order to ensure that only verified users have access to certain administrative feature, credentials verification is being made mandatory.

All the users are requested to get their mobile and email ids verified against the user ids as the above feature would be implemented with the forthcoming release version 2.82.
