Subject: Integration with FICS System of FSSAI

We are pleased to inform that SEZ Online System is now integrated with FICS (Food Import Clearance System) System of FSSAI. This integration is being enabled as per advice of SEZ division, MOCI and processes notified by FSSAI. This facility is enabled for DTA Sale transactions.

In DTA Sale module fields applicable to this integration have been incorporated in to item details section (It is shown below).

System will indicate users when HSN for which FSSAI approval is considered essential is captured. In grid shown for HSN, it will show applicable Agency name / PGA name as FSSAI. User will have to declare whether item requires NOC/NCC/Release Order from FSSAI.

When this declaration is made and BOE is submitted to customs, DTA Sale BOE item data will be transmitted to FSSAI FICS system. FICS will then provide the electronic release order for those transactions which will facilitate Customs in assessment.

Kindly note that importer can access FICS System to fetch BOE shared by SEZ Online & attach required documents, if any as required by FSSAI.

After successful submission of DTA Sale request from entity approver user, the following UI alert will be displayed to all the users involved in the workflow (i.e. unit as well as SEZ customs) when the request is opened from Inbox/Search Request.

Once user clicks on [Click Here](#) link in this message, the following window will open showing the status of data sharing with FSSAI and Release Order status received from FSSAI.
